

THE INCOMPARABLE--RENFREW

We feel that we have a perfect right in calling the Renfrew Separator "Incomparable." It skins by the disc system which is carried to the highest degree of perfection. These discs are made to fit to the 1-1000 part of an inch. That means close skinning. The Renfrew has a wide open bowl which is exceedingly simple in construction. That means sanitation. The two chief points in a separator are its close skinning, and sanitation. The Renfrew has both, with numerous other individual features possessed by no other separator in the world. Write us for our new catalog.
